👤 PROFILE

Software Engineer and Business Solutions Architect bridging the gap between complex enterprise operations and scalable code. I build secure Multi-tenant ERPs, interactive e-commerce platforms, and AI-driven automation agents (SaaS). Leveraging my prior experience in VIP corporate account management, I deliver technically robust products tailored to accelerate business growth and ensure strict data compliance.

📁 PROFESSIONAL EXPERIENCE

Business Flow

Full Stack Laravel Engineer (ERP Systems)

07/2025 – 11/2025 | Syria, Aleppo

Led the end-to-end development and customization of pre-built Enterprise Resource Planning (ERP) platforms using Laravel, tailoring core modules to meet complex client-specific business workflows.

MTN Syria Telecom

Customer Care representative

01/2017 – 03/2024 | Syria, Aleppo

Started as a Customer Care Representative and was rapidly promoted to manage high-net-worth (VIP) and corporate accounts due to exceptional problem-solving and communication skills.

📁 PROJECTS

AgentX 🔗

AI-Powered WhatsApp Sales & Automation SaaS

01/2026 – 02/2026

- Built a B2B automation platform using **Laravel**, **Node.js** & **MoonShine**, integrating a local WhatsApp gateway with intelligent customer interactions.

Smart HR 🔗

Enterprise SaaS ERP

07/2025 – 01/2026

- Architected a scalable, multi-tenant HR system from scratch using Laravel 12 & Filament 3 with strict data isolation.
- Engineered 10+ modules featuring AI-driven interviews (OpenAI), automated payroll, and international government compliance APIs (GOSI, SGK).

Dressora 🔗

Interactive E-commerce & Digital Showroom

11/2025 – 01/2026

- Developed a high-performance, SPA-like shopping platform using Laravel & Livewire
